PROFILE SUMMARY

Full Stack Developer with 5+ years of experience building and teaching web applications. Currently developing ERP and production software for Humana Apparels (a joint venture of Ha-Meem Group and Busana Apparel Group), including a QR-based production tracking system running live on the factory floor. I build business systems end to end — database design, REST APIs, dashboards and Docker-based deployment — with Laravel, Next.js, the MERN stack and Django. I turn real business workflows into simple, reliable software and explain technical work clearly to non-technical teams. Open to remote roles and freelance projects.

WORK EXPERIENCE

Software Developer & Programmer — Humana Apparels Pvt. Ltd.

2025 – Present

Joint venture of Ha-Meem Group & Busana Apparel Group · Dhaka, Bangladesh

- Develop and maintain in-house business software — ERP, ProTrac (production tracking), BOM OCR and BMS — used by factory and management teams.
- Built **ProTrac**, a QR-based garment production tracking system (Django REST Framework, PostgreSQL, Next.js, TypeScript) with hourly line dashboards, WIP monitoring, quality control and Excel/PDF reports with scheduled daily report emails.
- Deployed ProTrac on the factory floor: **6 sewing lines, 3 TV dashboards** and finishing scan points across two floors.
- Built an OCR-based BOM management system that digitises garment bill-of-materials documents to reduce manual data entry.
- Set up Docker-based deployment with Nginx and GitHub Actions, including database backups, health checks and automatic rollback; handle testing, debugging and ongoing enhancements.

Full Stack Web Developer & Technical Trainer — Geeta University

2022 – 2025

Haryana, India

- Developed and maintained the university website and LMS (Laravel, MySQL), **increasing student engagement by 40%** and **reducing downtime by 25%**.
- Delivered hands-on training in React.js, Next.js, MERN and Laravel, mentoring students on real-world projects.

Web Design & Development Trainer — AKR Technology & Dcrowd IT Ltd

2020 – 2021

- Delivered **200 hours** of web development training (MERN and related technologies) to two batches.
- Managed course delivery, assignments, attendance and trainee progress; **30% of trainees started earning online**.

TECHNICAL SKILLS

Backend	PHP (Laravel), Node.js, Express.js, Python (Django, Django REST Framework), Next.js, REST APIs, JWT authentication
Frontend	React, Next.js, TypeScript, JavaScript, Vue.js, Angular, Tailwind CSS, Bootstrap, HTML5, CSS3
Databases	MySQL, PostgreSQL, MongoDB, SQL
DevOps & Tools	Docker, Nginx, GitHub Actions, AWS EC2, cPanel hosting, server maintenance, Git/GitHub, Postman, VS Code
AI & Automation	Claude, ChatGPT, Gemini, prompt engineering, workflow automation
Domains	Garments & apparel (production tracking, BOM, QC, ERP), LMS, eCommerce, business dashboards
Other	Responsive UI/UX, SEO-friendly development, WordPress

PROJECTS

ProTrac — QR-Based Garment Production Tracking github.com/shafikcmt/protrac

Django REST Framework · PostgreSQL · Next.js · TypeScript · Docker · Nginx · GitHub Actions

- QR scanning at each production stage for bundle and garment traceability, with live WIP by line.
- TV dashboards per line, quality control and Excel/PDF reports; JWT accounts for each scan point and display.
- Containerised, OpenAPI-documented API with automated deployment and rollback.

Garments BOM OCR Management System github.com/shafikcmt/garments-bom-ocr-management-system

- OCR-based system that extracts and digitises garment BOM data to automate production data entry.
- Structured database for fast search, and a simple UI to upload documents and review results.

Laravel Learning Management System github.com/shafikcmt/laravel-learning-management-system

Laravel · MySQL · Bootstrap

- Admin and student dashboards for course, batch and quiz management; responsive and secure.
- Basis of the university LMS (+40% student engagement, −25% downtime).

Laravel Multi-Vendor eCommerce github.com/shafikcmt/laravel-multi-vendor-ecommerce

Laravel · MySQL

- Vendor dashboards, product management and order tracking, with secure authentication, cart and checkout.
